

FOR IMMEDIATE RELEASE

Doing More With Less Increases Demand for Remote Technology and IT Support Services

AllSector Teams with Software Innovator N-able Technologies to Provide Remote IT Services and Support to Businesses, Health and Human Services Agencies, and Non-Profit Organizations

New York, NY, October 21, 2009 – [AllSector Technology Group[®] Inc.](#), a managed services, systems integration consulting and Software-as-a-Service (SaaS) solution provider, announced today it has teamed with [N-able Technologies[®]](#) to deliver more cost-effective and comprehensive remote IT services and support to organizations and businesses throughout the New York Tri-State Region.

N-able Technologies is the global leader in remote monitoring and management software for managed service providers (MSPs). The company's N-central platform significantly expands and enhances AllSector's outsourced IT services to include services such as 24/7 remote active monitoring and remediation capabilities, as well as deliver detailed business and IT performance reporting, which makes demonstrating productivity gains and return on investment fast and easy.

“With continuing concerns around the economy, companies and organizations are under tremendous financial pressures when it comes to managing technology infrastructure and accessing customers' data,” says Michael L. Davis, President and CEO of AllSector. “By deploying N-able Technologies' N-central technology, we're able to provide our clients with the technology, technical expertise and 24/7 monitoring services they need at a price they can afford.”

“With N-able's N-central technology, AllSector is able to provide its customers more IT services and support for less – which is exactly what businesses are asking for,” says Mike Cullen, Vice President of Sales, N-able Technologies. “By outsourcing their IT needs, companies can keep their focus on customer service and stop worrying about their IT. That's a big relief to any type of organization.”

AllSector services a range of small and medium-sized businesses, non-profit organizations and health and human services agencies. For more information about

AllSector's outsourced IT services powered by N-able Technologies, please visit www.allsector.com or call 1-212-366-8181.
